

NumTraits< double >

```
graph BT; A["Eigen::NumTraits< GQCP  
::EvaluableLinearCombination  
< Coefficient, FunctionType > >"] --> B["NumTraits< double >"]
```

The diagram illustrates an inheritance relationship. A light blue arrow points from the bottom of the 'Eigen::NumTraits< GQCP ::EvaluableLinearCombination < Coefficient, FunctionType > >' box to the bottom of the 'NumTraits< double >' box, indicating that the former inherits from the latter.

Eigen::NumTraits< GQCP
