The diagram illustrates a source file, `ONV.cpp`, located at `/__w/GQCP/GQCP/gqcp/src/ONVBasis/SpinResolved`, which includes two header files: `ONVBasis/SpinResolvedONV.hpp` and `ONVBasis/SpinUnresolvedONVBasis.hpp`. The source file is represented by a grey box, and the header files are represented by white boxes. Blue arrows indicate the inclusion relationships from the source file to each header file.
